

Optek Solid State Relays OSSR Series

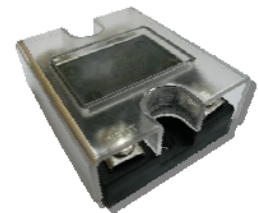

Providing design engineers with the reliability of solid state switching and optical isolation, TT electronics OPTEK Technology has introduced a family of solid state relays. Designated the OSSR Series, the relays are offered in hockey puck (panel mount), SIP1 and SIP2 packages, and incorporate a zero crossing circuit that minimizes current and noise surges due to resistive and inductive loads.

Market Segments

- ✓ Industrial
- ✓ Consumer
- ✓ Office Equipment
- ✓ Commercial

Applications

- ✓ Security Systems
- ✓ Appliances
- ✓ HVAC
- ✓ Motor Controls
- ✓ Robotics
- ✓ Industrial Equipment
- ✓ On/Off Lighting

Features

- ✓ Non-contacting Relay
- ✓ Long Life
- ✓ Zero Crossover
- ✓ Low Noise

Competitors

- ✓ Crydom
- ✓ Opto22
- ✓ Crouzet
